## II. Requirements:

1. Create Mobile app using preferred platform (Android-Kotlin or iOS-Swift).
2. App can work in landscape and portrait orientation.
3. Design the app is based on developer preference.
4. First page – Logo + 4 buttons. On the left hand-side BG, on the right hand-side EN

BG Buttons:

Btn1: Тарифа

Btn2: Бюлетин за лихвите

EN Buttons:

Btn3: Tariff

Btn4: Interest Bulletin

5. Second Page – Each button leads to corresponding resource from the Resources section – PDF view which loads the resource on screen.
6. After 5 min of inactivity, the screen must be reset to home screen (point 3 in this section).

## III. Output

1. Upload app source code to repository in GitHub. If Android is used – upload built APK.
2. Add 2 screenshots of the app – home screen and PDF view screen of any desired resource.
